

CHEMICAL DOMINOES

This game is designed for 2 to 6 players. Copy and cut out the following domino blocks. Laminating them before cutting will increase their durability. Turn them all upside down on a table. Each player draws 7 pieces. The person with a double blank goes first. If no one has a double blank, each player draws until one shows up. Play like normal Dominoes, matching the clue with an answer or like symbols. If a player cannot make a match he/she has to draw another piece until he can play. The first person to use all pieces wins.

		Chemical used on the farm			Pesticide	
Chemical used on the farm	Chemical used on the farm		Chemical used on the farm	Herbicide		Insecticide
