

## Apply to Host a 2018 Progressive Agriculture Safety Day®

**Mission:** Provide education, training and resources to make farm, ranch and rural life safer and healthier for children and their communities.

**Vision:** No child would become ill, injured or die from farm, ranch and rural activities.

Since the Progressive Agriculture Safety Day® program's inception in 1995, more than 1.5 million children and adults have learned life-saving safety lessons. With the support of dedicated volunteers, generous partners and loyal supporters, our program is recognized as the largest rural safety and health education program for children in North America. Annually, we sponsor between 400 and 425 Safety Days throughout North America that reach more than 100,000 participants and volunteers. **Applications for 2018 Progressive Agriculture Safety Days® are due by July 15, 2017!** Act now! Applications are approved based on available funding and in-part on when an application is received.

With recent statistics showing that every three days a child dies due to an agricultural-related incident and every day 33 children are injured in an agriculture-related incident, our mission and

vision is at the forefront of the Progressive Agriculture Safety Day®

program. Each year, we train hundreds of volunteers from the U.S., the U.S. territories and Canada to coordinate a one-day, age-appropriate, hands-on, fun, and safe event for children. In addition to training and educational resources, we provide t-shirts, take-home bags and insurance coverage to all participants and volunteers. With 28 chapters of safety curriculum, the coordinators have the ability to customize their school or community-based Safety Day based on the needs of their local community. Fire, all-terrain vehicles (ATV), electricity, chemical, animal, lawn equipment, first aid, water and grain, are just a glimpse at some of the diverse topic areas.

PAF is a charitable 501(c)(3) non-profit foundation that governs and secures funding solely for the Progressive Agriculture Safety Day® program. For more information on the Progressive Agriculture Safety Day® program or to locate an application, visit our website at [progressiveag.org](http://progressiveag.org) or call us toll-free at 888-257-3529.

**Progressive by Nature. Safety by Design**
